## PR Rolls News August

PR Rolls Oy News

In august we made a lot of work with very good response.

We grinded dryers in Sweden, Poland, Russia, etc. we coated dryers in Sweden, Russia etc. and drilled Vac-rolls in Austria.

On yankie cylinder we made new bearing and machined the journals for the bearing modification. We repaired a lot of dryer journals on-site.

DD-washer seal surfaces were repaired and of course there were also a lot of spreader rolls repairs.

We also closed a new agency contract for Germany area with HS Vertretung and opened market to Brasil together with After Sales Partners.
