

# TecnoGrip Coatings

*Friction / Anti Slip Coatings*

## Targets

- Pope drums
- Winder drums
- Winder carrier drums
- Winder section rolls
- Spreader rolls

## Problems

- Paper slipping
- Paper marking
- Evenness / uniformity and quality of paper reel

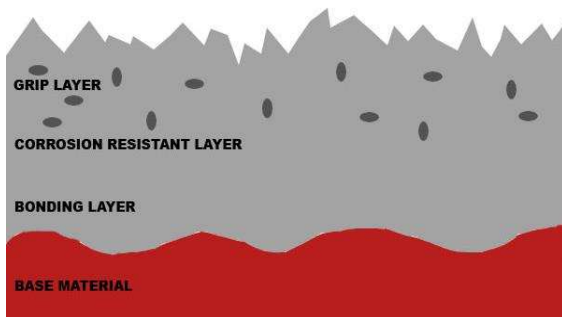

## Work description

- Grit blasting
- HVOF spraying
- Surface treatment

## Benefits

- Excellent anti-slip properties
- Good wear resistance
- Corrosion free
- Re-roughenable
- Can be done in a short shutdown, working time <12h

## Technical details

- Hardness of ready made coating  $1200 \pm 150$  HV
- Roughness 4 – 16 Ra (tailorable by paper quality)
- Thickness 70 - 120  $\mu\text{m}$
